Pro-Castro Students Involved

U.S. Official's Car Burned In Venezuela

CARACAS, Venezuela (AP) — Several hundred pro-Castro students burned U.S. Ambassador Teodoro Moscoso's automobile Wednesday night at Caracas University while he was attending an exhibit.

The students crowded around the car parked on the university campus, yanked the driver from the front seat and set the vehicle afire.

Government officials charged the students acted on order of "well known leftist leaders." The Caracas press has accused university officials of being too lenient with Communists in the student body who staged a bloody uprising late last year.

Moscoso did not see the attack

and discounted its significance, saying: "I must say that I feel this does not reflect the true feeling of the people of Venezuela."

A Puerto Rican, Moscoso was appointed ambassador to Caracas last March by President Kennedy in a move to improve U.S. relations with Latin America.

But even before his arrival recently, Moscoso had been the target of student demonstrations denouncing the U.S. role in the ill-fated invasion of Cuba by exiled opponents of Fidel Castro.

The students had been trying to get up a demonstration ever since Moscoso arrived in Caracas but had been thwarted by the vigilance of police, acting on orders of President Romulo Betancourt. However, police traditionally stay

off Venezuelan campuses unless invited to enter by school authorities, and Moscoso and his party went unguarded to see the exhibit at the school of architecture.

Moscoso waited in the office of Rafael Devenzi, the university president, while school authorities restored order.

Alejandro Oropeza Castillo, governor of the Caracas District, and scores of police arrived within minutes after the incident was reported but were not called into the campus.

Governor Oropeza accompanied Moscoso back to the U.S. Embassy.

The university was the center of an uprising that took 12 lives in seven violent days ending last Dec. 2.

District Court Halts School Intervention

Rejects Federal Bid To Enter Racial Case In Virginia

RICHMOND, Va. (AP) — The federal government's historic bid to intervene in the Prince Edward County school case has been rejected on grounds it "will unduly delay and prejudice" the rights of both sides in the drawn-out court battle over the country's integration-closed public schools.

With those words, U.S. District Judge Oren R. Lewis Wednesday turned down the April 26 request by Atty. Gen. Robert F. Kennedy that the federal government be allowed to enter the 10-year-old case as a plaintiff. The government normally enters a racial case as a "friend of the court."

Kennedy had contended federal intervention was necessary "to prevent the circumvention and nullification" of the court's school desegregation order that led Prince Edward to close its public schools in 1959.

Justice Department officials in Washington declined comment until they could study the court's opinion. Kennedy was in New York City to speak to a meeting of state attorneys general.

Prince Edward County, one of the original localities named in the U.S. Supreme Court's 1954 school desegregation decision, has been without public schools for two years and the county governing body has refused to appropriate funds for next year.

Some 1,450 white children have been educated in private segregated schools financed mostly by county and state tuition grants. Most of the 1,700 school-age Negroes have gone without formal education.

In his intervention move in April, Kennedy had asked the court to prohibit Virginia from spending money to maintain public schools anywhere in the state as long as those in Prince Edward County remained closed.

"Such relief, if granted, would be unnecessarily punitive, in that it would require the closing of most, if not all, of the free public schools in Virginia," said Judge Lewis. "Whether the means, if legal, justify the end is questionable, to say the least."

The judge noted that the government in presenting its case had argued it did not intend to force the closing of all the state's public schools but refused to delete the request from its plea.

Judge Lewis also pointed out the federal government made no move to intervene as a plaintiff in school cases in Little Rock and New Orleans even though "open defiance of federal court orders was obvious. In Virginia, this complex problem has been and is being solved in a lawful and proper manner through the courts. There has been no knowledge of defiance of this court's orders by either the state of Virginia or the county of Prince Edward."

Salem Firm Built Top for JFK Limousine

The delivery of the new limousine to President Kennedy Wednesday was of special significance to Salem people. The plastic top was made by the men of Salem Plastics, Inc. It is a special sectional top which can be removed and stored when not in use.

The top is shown above being lifted into place at the White House.

Salem Plastics Inc. was the first new industry brought to Salem by the SAIDC, Chamber of Commerce, and Walter J. Hun-

ston. Hunston has served as president of the company since its inception. Lester Kenmuir of Lisbon, the plant manager, was in charge of the construction of the special top.

"It is a tribute to the skills of the men of this company," Hunston stated.

"Jack Wem did an excellent job in selling this job," he added.

The company specializes in plastic signs, aircraft windows and other vacuum formed plastic products.

Since the firm's organization, Hunston has served for two years without compensation as president and the other men have contributed many hours of time in their effort to get this new industry started to provide jobs for people in the Salem area.

Other features of the President's car are an elevator rear seat, two-way phone, retractable steps for Secret Service men and interior floodlighting. More than 21 feet long, the car has a steel roof and convertible top as well.

4 Teachers Still Needed At Leetonia

LEETONIA — Four teaching positions remain vacant in the local school system, Dr. W. W. Gephart, school superintendent, reported at the Board of Education meeting Wednesday night at Orchard Hill School.

The vacancies exist fifth grade, sixth grade, junior high English and French teaching jobs.

The board approved the rehiring of all non-instructional personnel which includes bus drivers, cafeteria workers, secretaries, custodians and the school nurse.

Miss Pat Ranson of Salem and Miss Sara Bay of Dover were hired as second grade and vocational teachers, respectively. The board accepted the resignation of Mrs. Raymond Knight, an elementary teacher.

The annual cafeteria report presented by Dr. Gephart revealed that a total of 101,900 lunches was served during the school year, with approximately 16,000 being free lunches.

According to a report of a heating engineer, it will cost approximately \$4,000 to replace the boiler.

'Cite Reasons,' Police Head Requests

Lutsch Hits Proposed Civil Service Changes

Police Chief Martin Lutsch, Jr., said today that he "sees no reason in the world" why such positions as fire chief, police chief, meter maids and desk men should be taken from civil service as would be the case if the proposed city charter is approved by the voters this November.

The Charter Commission voted by a 7-4 margin this week to remove several positions, including those mentioned above, from civil service and have them filled instead by appointment from the mayor with approval of City Council.

"I think the Commission ought to explain to the public just what its reasons are for wanting to make the change," Lutsch remarked, "and why at an open meeting they decided to take a secret vote on the question of whether or not to classify the police and fire chiefs."

"This department has done everything it has been asked to do. We have records that prove our efficiency. What do they want to change for?"

"Sure, they are leaving the policemen under civil service, but as long as the chief is not under this system the whole department will be manipulated by the mayor," the chief said.

"If this goes through," Chief Lutsch continued, "we could have some politician come in here and make a political football out of this thing."

"We don't have to go far to find an example of where this has happened," Lutsch added. "The mayor of Youngstown has changed police chiefs three times in 16 months and there is no telling how many more changes there will be before he gets out of office. Who says it couldn't happen here?"

"Some people say it's too difficult to get rid of an incompetent man as long as he is working under civil service. That's hogwash. If a man is not doing his job, he should be fired."

The President will see his wife for the first time tonight since she slipped out of the White House at sunset Wednesday and motored to the Navy gun factory where he boarded the Patrick J., one of the boats used by the first family.

Kennedy and his companions—his sister and brother-in-law, Mr. and Mrs. Stephen Smith; Harvard classmate Rep. Robert McDonald, D-Mass., and New York advertising man R. LeMoine Billings—had dinner aboard. After a leisurely cruise of about 2 hours and 20 minutes they docked in Washington at 10:05 p.m.

He has been using crutches but White House news secretary Pierre Salinger, who disclosed the boat ride, said Kennedy evidently had no trouble boarding the Patrick J.

Village Council Laws Explained

Board Clerk Cites Election Changes

One new law stacked atop another by the State Legislature means that villages in Columbiana County will follow two methods in electing council members for four-year and two-year terms in November, Frank R. O'Hanlon, Election Board clerk, said today.

It boils down to the fact that Leetonia Council candidates names will appear on the ballot specifically designated as aspirants for four-year and two-year terms. But in all other villages the candidates will be grouped together without any mention of the long term or the short term.

The four who win the highest number of votes will assume four-year terms and the two who trail in the six-man race will take two-year terms.

Of the so-called larger villages—those with over 2,000 population—the law affects Lisbon and Columbiana. Their Council candidates will run without term designations. And O'Hanlon said it probably also will apply in the so-called small villages—those under 2,000 population—Salineville, Rogers, New Waterford, Summitville, Washingtonville and Hanoverton.

The newest law, effective June 8, says that village Council candidates who were nominated in the primaries for four-year or two-year terms will be listed on the ballot this fall with the term designations. In all other communities, including those in which candidates automatically received certificates of nomination under the "no contest" law, the term designations will not be used in the general election.

Since Leetonia was the only village to hold a primary, it is the only community in which the Council term designations will be used on the fall ballot. Lisbon and Columbiana normally would hold primaries, but they skipped the voting in May because there was no contest for any office.

Primaries are not held in the villages under 2,000 population. Their candidates file nominating

Neglects U. S. Rebuttal

Gromyko Departs During Laos Talks

GENEVA (AP)—Soviet Foreign Minister Andrei Gromyko is expected to leave for Moscow today, probably without waiting to hear W. Averell Harriman's reply to his charge that the U.S. delegation is stalling the East-West conference on Laos.

The chief U.S. delegate was to

appeal at today's session for an end to the month of propaganda speeches so the 14-nation parley can get down to details of setting up a unified, neutral Laos.

Harriman also was expected to deny that the United States has violated the cease-fire in the Southeast Asian nation, a charge leveled by Gromyko before turning over his work here to lower ranking Soviet diplomats.

The United States accuses the Communist-led Pathet Lao guerrillas of violating the cease-fire, which a U.S. military adviser in Laos said Wednesday "has been a joke for the past 10 days."

The Pathet Lao seized the mountain village of Padong June 6 and only Monday captured the government villages of Ban Hat Bo and Ban Pak Lat. All three are positions on the front northeast of Vientiane, the capital.

Military observers said 1,000 rebel troops took part in the assault on the two villages.

The capture of Padong prompted the United States to lead a Western walkout of the conference last week. Western delegates returned to the conference Monday after Britain and the Soviet Union—as cochairmen of the conference—appealed to all factions in Laos to observe the truce. But the West did not get the guarantees of an effective cease-fire it demanded.

The international control commission of India, Canada and Communist Poland reported, however, that the sporadic fighting does not indicate a widespread breakdown of the cease-fire. The commission's report was announced in New Delhi by Defense Minister V. K. Krishna Menon of India on his return from the Geneva meeting.

The leaders of the two factions in Laos opposed to Premier Boun Oum's Western-backed government gave their views on neutralizing Laos at Wednesday's conference session.

Three teen-age boys, two of them from Salem and one from East Rochester, were injured early this morning when the car in which they were riding went out of control and crashed into an embankment on Rt. 45, three miles south of Salem.

In fairly good condition at City Hospital are:

Oliver Ingledue 15, of 1474 S. Lincoln Ave., lacerations of left forearm and right hand and possible chest injuries.

Richard Brown, 16, of 632 Cherry St., bruises of the body.

William Lester Ingledue, 19, of RD 1, East Rochester, fractured left hand.

The Ingledue boys are brothers. The State Highway Patrol said William Ingledue was driving the car which went left of center and crashed into a ditch before striking the embankment. The 1953 model car remained upright but it was damaged extensively.

The driver was cited for going left of center. The accident occurred at 1:45 a.m.

In another accident at 7:25 a.m. Wednesday, Vernon Richard Rose, 40, of Wellsville suffered a bruised left elbow when his car collided with a truck on Rt. 39, a few feet east of the Columbiana-Carroll County line.

Rose told the Patrol that he would go to a physician for treatment.

According to the Patrol, the truck, operated by Thomas Franklin Sawyer, 57, of Dyersburg, Tenn., was traveling west on Rt. 39.

'Day Dreaming' Of Inflation Could Turn Into Nightmare

By DICK BRAUTIGAM

Has the cry of inflation been heard so often that we have become immune to its sinister meaning?

Long ago we quit paying much attention to those monthly reports which show that the "cost of living" index has risen another one or two tenths of a per cent. Another penny on a quart of milk or a few extra dollars on a new car don't seem to make much difference.

But, what about the effects over a long period of time?

To get a better perspective on inflation, let's stretch out these price increases over a longer period of time. To accomplish this, let's go to the Salem News files 25 years ago this month and check the advertised prices in 1936 and compare them with those advertised today. Then let's project these prices at the identical rate of increase, 25 years into the future.

This will give us a glimpse

of what prices will be like in 1961 if inflation continues the next quarter century at the same rate it has for the past 25 years.

IT'S SHOPPING DAY in June, 1961. You start your morning at the grocery store which advertised some very attractive specials in yesterday's News.

As you pass the meat counter you find it hard to pass up that bargain on round steak which is listed at only \$4.09 a pound. The pork chops look a little fat but for only \$1.94 a pound you might as well get a few of those, too, because the price will probably go back up on Monday.

Strawberries are just coming into season and are selling fast for only \$1.76 a quart. That deal on coffee looks to be as good as any you've seen for a while—two pounds for \$4.89.

A LOAF OF BREAD for 50 cents and a dozen eggs for \$1 are other items you slip into your shopping basket.

Turn to INFLATION, Page 10

You remember that Dad asked for a pack of cigarettes, and you want to be sure to get those at the grocery because they are only 67 cents a pack there, whereas the machine requires three quarters.

It's a hot day and as you walk toward your car, your eye is caught by a colorful sign on a drug store window advertising fresh peach sundaes for only 60 cents.

Getting into the booth at the drug store, you snag your hose and this really burns you up since you know that they can't be replaced for less than \$4.50 a pair. Your troubles aren't over yet.

You are eager to get home out of the hot sun, but when you push down on the starter of your car—nothing!

It's not hard to figure out what's wrong. Your gullible husband had just bought one of those batteries advertised for only \$45 and you knew that was too

Tractor Size Change Sets Stiffer Price

Dictator Reduces Exchange Prisoner Count To 1,167

HAVANA (AP)—The U.S. tractor-for-prisoners team heads for Washington today after hearing Fidel Castro's latest demand—\$28 million worth of farm-type tractors in exchange for 1,167 captive invaders.

This amounts to about \$24,000 per prisoner.

The unofficial, four-man negotiating panel said it made no commitments to the Cuban prime minister; that it intended to lay the demand before the Tractors-for-Freedom Committee headed by Eleanor Roosevelt.

Whether the committee, in its drive for public subscriptions, could raise the kind of money involved in Castro's demand was uncertain. Other leaders of the drive, besides Mrs. Roosevelt, are Walter Reuther, head of the United Auto Workers and Dr. Milton Eisenhower.

The campaign for funds results from Castro's offhand offer of May 17.

Castro showed some new sides to his proposal Wednesday during five hours of negotiating sessions with the American team.

He said he would go along with the committee's offer to supply small farming tractors rather than the big construction tractors he originally sought. But he said the large tractors would have \$28 million plus transportation costs—so he expected that much money's worth of the smaller machines.

The Cuban leader indicated he would be agreeable to receiving 1,000 tractors one-half the size of the heavy models first demanded.

The monetary value was a stiff price in terms of the committee's earlier thinking. The fund raisers had been talking about raising \$2.5 million or so to buy 500 of the smaller types of tractors which they said should meet Castro's agricultural needs.

Columbiana Chamber Seeks Public Views

COLUMBIANA — At the meeting Monday evening, the Chamber of Commerce voted to mail general questionnaires dealing with a variety of subjects to the public.

The questionnaire was designed to give the citizens of Columbiana an opportunity to give their views on such matters as educational facilities, shopping problems, or upon any subject they might desire to bring to the attention of the Chamber of Commerce.

The members also discussed plans for the 4th of July celebration at Firestone Park, sponsored by the Chamber of Commerce in conjunction with the VFW, Rotary, Kiwanis, American Legion, and the Junior Chamber of Commerce.

Tennis, Little League baseball games, and a fireworks display

are to be on the program for the day.

MRS. HAROLD MARTSOLF of Salem, director and teacher of the School for Retarded Children in Elkton, was guest speaker at the meeting of Kiwanis Monday evening.

Mrs. Martsolf gave insights to the problems that retarded children and their parents face. The fact that the retarded child and adult must be accepted by society for what he is was the main objective of her talk.

George Morrow of Washingtonville, recognized as foremost ham radio operator, will be guest speaker Monday, June 19. He will be introduced by Don Hoover, another local ham operator. Morrow's topic will be "Ham Radio Operation."

COLUMBIANA CHAPTER 428,

Order of Eastern Star, held its regular meeting Tuesday in the Masonic Temple. Worthy Matron Ruby Rowland and Worthy Patron Kenneth Rowland presided. All men present were honored by the Worthy Matron and given a small gift.

Mrs. Paul Wilms furnished entertainment with pictures of her recent trip to Hawaii. At the conclusion of the meeting, luncheon headed by Mrs. Leona Griffith.

The American Legion baseball team beat Steubenville, runner up to the state championship last year, 6-5 at Firestone Park Tuesday evening. It was the team's eighth win in nine games. Kenny Gallagher pitched his fifth winning game of the season.

FIRE LOSS SET AT \$250,000

NAPOLÉON, Ohio (AP) — Fire destroyed one of the states largest poultry and egg processing plants Wednesday. Loss at the Koppenhofer Bros. plant at Deshler was about \$250,000.

All of the 50 or so workers in the 185-by-125-foot structure when the fire broke out escaped unhurt. Firemen said defective wiring apparently started the fire. The plant processed thousands of turkeys and 3,000-4,000 cases of eggs each week.

The Doctor Says

By DR. H. T. HYMAN

Diet In Relation to Blood Fat Level

In a previous column I gave the results of a nine-year study conducted on the effects of diet on blood fat levels at the Rockefeller Institute.

Briefly stated, these studies suggested that the level of blood fats (lipemia) was most often dependent on the manner in which the body converted carbohydrates into fat, and least often on the presence in the body of an inherited enzyme capable of digesting body fat. In neither instance was the level due to the relative amount of fat in the diet or to the kind of fat that

was ingested.

Fitting in with this laboratory study was an experiment conducted by Dutch physicians on Trappist and Benedictine monks.

NOW THE TRAPPISTS live on a food intake of milk and vegetables (lactovegetarians). The Benedictines favor a mixed diet. Here then was an ideal opportunity to observe the effects of diet on such conditions as arterial hardening (arteriosclerosis), angina pectoris, hypertension and disturbances of heart muscle (myocardium) due to obstruction of the coronary arteries.

Here in summary are the results:

There were no significant differences in the blood pressure levels of the monks of the two orders.

The average blood cholesterol

levels were considerably higher in the Benedictines (who were also considerably heavier).

THE INCIDENCE of myocardial infarction and of angina pectoris was about the same in the two groups but considerably lower than that of middle-aged men of the same age in the general population.

The higher level of blood cholesterol in the Benedictines suggested that the mixed diet might somewhat favor the development of arteriosclerosis, but that myocardial infarction was more likely the result of strains and stresses against which monks of both orders were protected by their monastic lives.

I don't for a moment imagine that these pronouncements will influence greatly the American public that has learned to look on eggs and butter as accomplices to the No. 1 killer. And I haven't the vanity to hope that they will restore the price of eggs to a level comparable to that of other foods.

But maybe I can get an "A" for Effort.

TRIAL IS CONTINUED

LISBON — The trial of Ronald Williams of Wellsville RD 1, charged with non-support of his four minor children, was continued Wednesday on a motion of the defendant.

This is the last criminal trial on the agenda for this term of court, and County Prosecutor G. William Brokaw said that at present he has no intention of recalling the grand jury as he has done during the past two years.

The next term of court will begin Sept. 11, he said.

Maybe Argentina Has An Idea

One of the things Adlai E. Stevenson is reported to have been told in Buenos Aires is that the United States should quit holding a spotlight on Fidel Castro.

This is what he wants most, in the opinion of government officials in Argentina. What he wants least is a economic isolation in Latin America that would make him absolutely dependent on the Soviet Union, because Moscow would not bail him out of his trouble.

But under no circumstances should the isolation be done in a way that would make Castro a martyr; that, too, would serve his purposes. Argentinians are confident the hardest blow he could be given would be to let him talk to himself while the United States cultivated its friends in Latin America.

WE DON'T KNOW whether Ambassador Stevenson will relay this advice to Washington, or whether Washington will receive it favorably. But we do know that the toughest luck that can befall a public figure is to drop off the front pages of newspapers and out of the bulletin news of the newscasters.

All public figures, whether they are in politics or show business, must keep their names and reputations in view or perish.

When You're In the Neighborhood

The Irish Independent of Dublin, with the wide-eyed candor that bespeaks an untroubled mind, has come out with an explanation for President Kennedy's trip abroad that will give fits to the experts.

They have been concentrating on the international significance of the meetings with President De Gaulle, Chairman Khrushchev and Prime Minister Macmillan. Some have been rolling their eyes in consternation over things said and left unsaid. All have been aware of an inconsistency between the trip and President Kennedy's previously declared intention to stay home and let professional diplomats take care of foreign relations.

The Irish Independent has passed over these concerns and gone straight to what might well be the main matter. Long before Mr. Kennedy mentioned the possibility of seeing the top decision-makers of France, the Soviet Union and Britain, the newspaper

Fidel Castro has stayed in the news since he overthrew the Batista regime more than two and a-half years ago. Pictures and news about his speeches and acts have made him a household word.

Not too long ago the same thing could have been said about Gamel Abdel Nasser. In 1956, a year during which he dominated the news, he made even Castro look like a piker in his best news-making year.

YET TODAY no one is particularly concerned about Nasser. He is still wavering between the Kremlin and any other source of power that shows any promise of helping him to carry on his ticklish project of political survival.

Most of the momentous things was was feared he might do didn't get done, such as patching together a federation of like-minded nations dedicated to destruction of Israel. Nasser, it finally was concluded, was subject to the law that all men who dress standing up must get into their pants one leg at a time.

Argentinians may have discovered something about Castro that wouldn't be visible in North America, where he is heard about every hour on the hour—that the fearsomeness of the bearded Cuban is largely the product of incessant publicity.

muses, he had made a firm commitment to be in London for the christening of Anna Christina Radziwill, his godchild, daughter of Mrs. Kennedy's sister. Everything else fell in place after the plans for the christening were made.

It was a case of seeing premiers, prime ministers and presidents while in the neighborhood. After all, it would have been awkward to explain why the President of the United States had gone abroad without dropping in to see some of the heads of state he would have to get acquainted with eventually.

The Irish Independent thinks this is the way it very well may have been, and in the absence of proof to the contrary it just very well may have been something that fitting for the experts who have been having conniptions about it.

Turning On the Steam

Prospects for passage of the federal school aid bill in the House of Representatives, it is reported, have improved dramatically the last few days.

Two causes are given.

First, Rep. Sam Rayburn, speaker of the House, has swung his support to the bill, after having been indifferent to it. He is reported to have changed his attitude because the pending bill would let states decide whether to put up buildings or pay teachers with the federal money and this makes it possible for "Mister Sam" to believe his objection to paying teachers with U.S. funds has been met.

Responsible Drivers

Roger May of nearby East Palestine was only one point behind Tom Mackey of Hillsboro, the state champion in the recent Ohio Jaycee Teen-Age Safe Driving Road-e-o held at Portsmouth. Mary Ann Hartford of East Palestine was third in the girls division of the contest.

Roger received a \$500 college scholarship and Miss Hartford \$200 but equally important, from a public standpoint, is the fact that they have demonstrated the knowledge and skills that make championship drivers. In these days of alarming traffic tolls, it's commendable when young people show an interest in assuming driver responsibilities as they should.

Summer Reading

Parents of youngsters up to junior high age who seem to have too much time on their hands to balance their boundless energy would do well to have their children enroll in the Summer Reading Club at the Salem Public Library.

The reading club is being revived this summer to encourage boys and girls to read more good books. Certificates will be awarded to those who finish 10 books and write brief reports about each. Adventure and knowledge await the children who sign up.

Once Over

Hamilton Fish says perhaps men with domineering mothers-in-law will offer to swap them for tractors or lawn-mowers. Mortimer Topblower has grabbed the idea and made the following proposition:

"I hereby offer my mother-in-law in exchange for what have you, and hope a committee will take it up fast, as I cannot stand her much longer. A few tractors would do me no good, as they would make almost as much noise as the old gal does. The same goes for steam shovels which she could make sound like minor disturbances.

"At first I thought of swapping her for a power lawnmower but my mother-in-law is less bother on account of she needs less sharpening to cut close.

"Just what I could get in exchange is a puzzler, but I would let her go cheap, maybe for something like a book on the Battle of Gettysburg, Shiloh and the Wilderness. This

would in a way be an even swap. A whole load of my wives other relatives are heading for my home this summer and I intend to capture them and exchange the bunch for a free balloon, a skin diving costume and material for a fallout shelter."

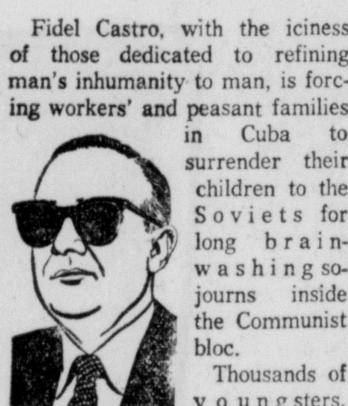

Topblower says the idea is spreading and he knows a man who has captured six land-lords and will try to get a committee to give him 50 do-it-yourself plumbing and general household repair kits and six army tanks. He says it takes at least six tanks to win an argument with a landlord.

"I know a man who says he wishes he could capture some of the U.S. officials who approved the Cuban landings so he could form a committee to trade them for a couple of good astrolagers, gypsy fortune tellers or an oil painting of Napoleon," declares Mr. Topblower.

Who D'ya Think You're Shovin'?

Inside Labor By Victor Riesel

Victor Riesel

Fidel Castro, with the iciness of those dedicated to refining man's inhumanity to man, is forcing workers' and peasant families in Cuba to surrender their children to the Soviets for long brain-washing sojourns inside the Communist bloc.

Thousands of youngsters, some 11 and 12 years of age, some a few years older, already have been sent over. They have been flown into Prague and shipped by freighter to Odessa. At the moment a thousand are awaiting departure. There will be thousands more.

Our government, and some civilians in the day-by-day battle against Castro, have concrete evidence of this shredding of families. We know the routes. We don't know how long the children will be kept behind the "curtain." We do know that when the kids return, they will know Russian. They will be steeped in Marxism. They will be, many of them, disciplined Latin Komsomolites.

THEIR PARENTS will not really ever know them again. They will not want to know their parents—if similar forced migration from European lands in the past is prelude.

Just last Wednesday our State Department officials learned that "1,000 young farm boys" are being prepared for shipment "in exchange for 300 Soviet agricultural

technicians." These youngsters average 11 to 12 years of age.

This corroborated reports brought back from Latin America by Joseph Beirne, president of the Communications Workers of America (AFL-CIO).

When this reporter talked with Beirne shortly after his return to Washington, Beirne disclosed knowledge of shipment of additional thousands of Cuban youngsters.

"What isn't generally known, however," said Beirne, "is the biggest propaganda push of all by the Communists.

"In Cuba, the entire fourth grade of Castro's public school system has been sent to Russia for a year or more of teaching. Latin American experts tell me at least seven or eight thousand Cuban kids are now getting the Soviet story at their most impressionable age.

"They are apt to carry this spiritual distortion with them all the years of their life, regardless what happens to Cuba in the future."

FROM ANOTHER source, an advisor to presidents for some three decades, came further corroboration. A. A. Berle, head of President Kennedy's Special Task Force for Latin America, reports that:

"Castro put on a campaign to induce a lot of Cuban families to surrender their children to be sent behind the Iron Curtain for education.

"There was a substantial number of such children. Some were 12 years of age. Some in secondary schools. Some older. A few

hundred of these are in their teens. This campaign started in March. Castro asked for volunteers. But how many dare turn him down?"

From other sources it was learned how the children are being transported. Some have gone via the Compania Cuban aircraft.

Others on planes of a famed airline owned by a western European country—not France. Others are flown over in bombers in which the Czech air force trains Cuban pilots.

STILL OTHERS are hustled quietly aboard scores of Soviet-bound freighters—some of them sailing under flags of other lands. Their processing center is Prague. Just where their final orientation centers are, no one yet seems to know.

There is a Latin American indoctrination apparatus in Prague. It is there that the Cuban Communist labor leaders, for example, have been trained.

Evidence of this affinity was seen in a labor meeting in the Hotel Havana Rivers on April 28. There, Czech labor specialists briefed Castro's top labor leadership.

These include Jesus Soto; Alvarez de la Campa; Rogelio Iglesias and Lazaro Pena. Both Soto and Pena are disciplined Communists trained in Prague. They agreed on "the exchange of labor experts and directives between the labor movements of both countries."

Thus the brainwashing will continue, across all ages as well as across the sea.

Cold War Benefit

By JOEL SELDIN

Finding Jobs For Foreign Students

Students having trouble finding summer jobs this year will have no problem if they can get themselves caught in the middle in the cold war. The maxim is illustrated by a sudden rash of efforts to find summer jobs for African exchange students.

The latest was reported last Wednesday by the AFL-CIO, which said it will encourage its member unions and central bodies not only to find jobs for African students, but will underwrite up to half the cost if the unions take African students on for the summer as staff members.

Last week, Secretary of Labor Arthur J. Goldberg assigned Donald Beatty, of the Ohio Bureau of Unemployment Compensation, to work full time on finding summer jobs for foreign students, with emphasis on the problems of the Africans.

A number of foundations are trying to help the Africans, including the Afro-American Student Foundation, The National Student Christian Federation, and the Afro-American Institute.

LIKE MILLIONS of other students in this country, the Africans find it necessary to earn money during the summer to pay for room, board and other necessities when they return to school next fall.

Frank Montero, of the Afro-American Student Foundation, estimates there are 1,800 African students in the United States, of whom about 500 are in need of summer jobs. Like most other students, the Africans are having a hard time because of the scarcity of jobs this year.

The Africans do have special problems. Most of them are Negroes and are caught up in this country's difficulties with racial discrimination in employment.

Those about to spend their first summer here are also unfamiliar with resources for job counseling and job replacements. But a good deal of the effort being made on the Africans behalf stems, in part, from the position of their home countries in the East-West rivalry for the allegiance of the new African republics.

THE AFL-CIO program is a case in point. The labor federation, with the government's encouragement, has been courting African labor leaders for some time.

It has contributed hundreds of thousands of dollars for African

labor in various ways, but mostly through the anti-Communist International Confederation of Free Trade Unions, which has affiliates in 22 African countries.

The federations president, George Meany, expressed concern over the job troubles of African students as far back as April.

In a letter to international unions and central labor bodies, he reaffirmed the AFL-CIO's opposition to colonialism and stressed the importance for Africa of a strong labor movement. He urged the unions to find summer jobs in private industry for African exchange students.

Last week, there was disturbing news for the AFL-CIO from Africa. Representatives of 38 countries met at Casablanca and set up the All-African Trade Union Federation. Through the prodding of delegates from Ghana and Guinea, it was decided that AATUF members must sever all ties with other labor federations.

ON ITS FACE, the resolution was neutral, because it barred affiliation not only with Free World federations but also with the Communist-dominated World Federation of Trade Unions.

Actually, the WFTU has few members in Africa and stands to lose little. Western leaders fear the "neutrality" involved in the Africans' decision has a strong pro-Russian tinge.

A few days ago, on his own initiative, Mr. Meany decided that helping students to find summer jobs in private industry would not solve the problem. He drafted the plan for underwriting up to half the cost if unions will employ the Africans, and is now sending out letters outlining the proposal to various union leaders, a spokesman for the federation said.

The spokesman could not estimate the cost of the new program because it is not yet known how many unions will ask for the reimbursement, or how many will employ African students.

Mr. Meany did not link directly the news from Africa with the new job program, but he has been concerned for some time with the signs of anti-Western feeling among some African labor leaders. Though the developments in Africa may not have triggered the new program, neither did they diminish the odds that the Africans will stand a better chance than most students of finding summer jobs this year.

Spoil Your Husband

By HAL BOYLE

NEW YORK (AP)—Ireland's leading actress suggested today U.S. wives would enjoy life more if they spent more time spoiling their husbands instead of nagging them—or competing with them.

"The Irish woman takes it for granted that it's a man's world," said Siobhan McKenna, who has red hair, green eyes—and a serene temper.

"When I married, my grandmother told me, 'Marriage is a partnership. As in all partnerships, sometimes one must give in—and it might as well be the woman.'

"Irish women do—and I think they're the happier for it."

Matter of Fact

In the days of the old Spanish Main, privateering was a half-way respectable business. A privateer carried a government commission to attack enemy ships. Some privateers were patriotic; others were thinly disguised pirates. One self-styled privateer bought a commission and plundered the Spanish Main. The paper, written in Danish, proved when translated to be a permit for hunting goats and wild pigs—nothing more.

These spring days when people are outside more, a popular sport is looking at the skies and predicting the weather by old proverbs. This is risky. But one proverb that makes good sense is, "Thunder in spring, cold will bring." Sure enough, in the middle latitudes, spring thunderstorms are common on the forward side of an advancing mass of cold air—just as the proverb says.

ANSWERS YOUR PROBLEMS

A Son's Wish

Dear Ann: I need some advice but nobody will give me an unprejudiced opinion because everybody I know has personal feelings about this matter.

I married young and had a baby boy the first year. My husband died shortly after the baby was born and I remained a widow for three years.

Now I am married to a very nice man and we have three children of our own. The oldest boy keeps begging me to change his last name so it will be the same as his father's and his brothers'.

I want to do it but my first husband's parents are raising violent objections. They say I owe it to the memory of their son to keep his name alive through this boy.

Please tell me what to do. I am going crazy trying to decide what is right. — GUILTY CONSCIENCE.

Dear Guilty: If the boy wants to change his name so it will be the same as the only daddy he has ever known, I say change it.

You can use your first husband's name as the boy's middle name. Then, for example, you can call him Robert Allison Brown.

Prosecutor Issues Opinion On County Sewage Districts

LISBON — Columbiana County Prosecutor G. William Brokaw Wednesday issued an opinion declaring the establishment of sewage districts in the county and outside of municipalities is the responsibility of the County Board of Commissioners and no other official county group.

The prosecutor ruled at the request of the County Health Department concerning petitions filed or about to be filed, urging the establishment of sewage districts in the Glenmoor and Calcutta areas near East Liverpool.

The health department reported it had received complaints from residents of the Glenmoor area regarding lack of action by the commissioners to establish a sewage district there, although they had presented a petition signed by 51 persons.

The petitioners had requested that the health department or some other county agency assist in establishing the sewage district.

County commissioners declared they are not averse to creating

the districts where needed, but must adhere to laws regulating such action.

They have visited Medina County to check on different types of sewage disposal plants which might be applicable to the Glenmoor-Calcutta areas.

The prosecutor's letter stated: "Please be advised that Chapter 6117 of the Ohio Revised Code makes provision for the establishment of sewage districts outside municipalities by the boards of

county commissioners.

"The law places the responsibility for creating sewage districts on the various boards of county commissioners within Ohio, and makes no provision for any other public officials to do so."

"The procedure, roughly, is for the board of commissioners to establish the districts wherever required and the cost of sewage treatment plants and maintaining the same is charged back against the area residents benefited by

the same. Bonds may be issued and paid as special assessments by the tax payers with regular taxes.

"If a board of county commissioners fails to act under the provisions of the aforesaid chapter, Section 6117.34 provides that a complaint may be filed with the state director of health, who inquires into and investigates the conditions complained of. It is within the power of the State Department of Health to order the

establishment of sewer districts if a complaint is made and the investigation reveals that sewer improvements are necessary."

Inflation

(Continued from Page One)

cheap for it to be any good. HOWEVER, ALL IS NOT LOST. Now when you get home you will have a talking point for a new car. The 1967 models aren't out yet but the neighbors just latched on to a neat new six-cylinder 1966 Oldsmobile for \$11,000 and certainly if they could afford it, so can you.

Chances are, though, you may have to wait 'til fall for the new car since hubby just bought you a new 12-cubic foot refrigerator for \$722 and that left quite a dent in his pocketbook.

These projected figures will be reasonably accurate if inflation continues the next 25 years at the same rate it has for the past 25.

Anyone planning to retire in 1986 had better get busy now. He will need a retirement income of at least \$1,000 a month to squeeze by unless inflation is halted before then.

Most economists today agree that the end to inflation is not yet in sight.

We, too, some day could be carrying our grocery money around in bushel baskets instead of pocketbooks.

Top Court Upholds Stutler Conviction

The Ohio Supreme Court Wednesday upheld the conviction of former policeman Louis A. "Mike" Stutler for the nighttime burglary of the Burbick Hardware in East Liverpool on June 9, 1954.

The 5-2 decision reversed an Appellate Court which had held that there was no evidence of a night burglary. The Appellate Court decision, in turn, has reversed Stutler's 1-15 year sentence by Columbiana County Common Pleas Court in 1958.

The Appellate Court decision had ordered Stutler discharged for lack of evidence that a burglary occurred at night when the store was closed.

The Supreme Court decision said in part:

"The jury by its verdict of guilty in this case having drawn the inference that the burglary did in fact occur in the night season, the court of appeals erred in reversing the judgment of conviction on its finding that there was no evidence in the case that the burglary had occurred in the night season."

Technology School Nears End of 1st Year of Operation

The Salem School of Technology is nearing the end of its first year of successful operation, with the final 12-week period now under way.

The 26 students now involved in classroom study voted to hold classes from 7 a.m. until 1 p.m. because of the hot weather. These classes end officially on Aug. 28.

Meanwhile, 26 other students who recently completed their classroom studies in the technical school are back at their "job stations" in cooperating industries where they are gainfully employed. When one group is in school the other class is at work.

Holland W. Cameron, director of the school and also coordinator of Salem's popular Trades Extension Classes, said registrations can be made anytime now for the second year of the Salem School of Technology which will start on Sept. 27.

Classes are held Monday through Friday, with courses of instruction offered in mechanical and electrical engineering. Other courses may be added at a later date.

Police Probe Two Unusual Accidents

Two unusual traffic accidents in the city Wednesday resulted in considerable property damage but no personal injuries, police reported.

A Columbiana County Highway Department truck drifted from its parking spot at the Quaker Motor Sales lot on S. Lincoln Ave. into the street where it was struck broadside by a south-bound car operated by Glen L. Grubb, 25, of Alliance at 12:51 p.m.

The front end of Grubb's car was demolished while both sides of the 1960 model pickup truck were damaged.

A Pennsylvania Railroad gate at the Mill St. crossing was broken off at 3:20 p.m. when it came down on a truck operated by Floyd G. Hoffman, 30, of Youngstown.

Hoffman told police that the gates had gone up, but when he started across the tracks, the bell started ringing and the gates came back down on top of his truck. Hoffman said he told the tower man on duty about the accident, then drove on to his next stop before calling Salem police.

Steelworkers to Observe 26th Anniversary Saturday

Local unions of the United Steelworkers of America, AFL-CIO, will join in observing the 26th anniversary of the parent organization Saturday and various mayors have issued proclamations for the event.

Proclamations have been issued by Mayor Dean Cranmer of Salem, Mayor Erwood Calvin of Columbiana, Mayor Ralph B. Kennedy of Leetonia and Mayor Robert Melott of Beloit. Each called for "a day of public appreciation for the aspirations and achievements of this great, American trade union."

District 26 of the United Steelworkers of America is headed by District Director James P. Griffin. Edward J. Hilland is Salem Subdistrict director and Charles L. Hinchliffe, staff representative.

Presidents of the local unions are: Local Union 1538, Mike T. Mancuso; Local Union 2463, Joseph Doyle; Local Union 3372, Charles W. Senior; Local Union 3816, Warren H. Baird; Local Union 3951, Harold Wolfe; Local Union 4022, Donald Beeler; Local Union 5572, Walter Arens; and Local Union 5635, Robert Glozer.

The Steelworkers' organizing committee was formed June 17, 1936, to unionize workers in the basic steel industry and the permanent organization, United Steel

workers of America, was formalized at a national convention at Cleveland in May, 1942.

Today the Steelworkers of America has some 3,000 Local Unions scattered from Northern Canada to the deep South, and from Puerto Rico to Hawaii, with 30,000 elected Local Union officers, thousands of committeemen, and 1,250,000 members.

Yanks Bomb Indian Hurlers, Win 11-5

Loss Drops Tribe Into Tie for First

Maris Socks 22nd Homer, Ford Wins 10th; Rubber Game Tonight

CLEVELAND (AP)—Jim Grant lays his unblemished record on the line again tonight as the Cleveland Indians square off in the rubber game of the series against the New York Yankees.

The Mudcat, who has won seven without a loss, hasn't faced the Yankees this year and it could be his sternest test. New York also plans to start an unbeaten pitcher, Ralph Terry (4-0).

Cleveland lost to the Yankees 11-5 Wednesday night. Gary Bell suffered his sixth setback in 10 decisions.

Richardson Belts First Homer
The Indians trailed 2-1 until the sixth inning when the Yankees made it a 5-2 bulge. Little Bobby Richardson put the game virtually

out of reach with a three-run homer in the seventh—his first of the year.

The loss dropped the Indians into a tie with Detroit for the American League lead. New York is only a game back.

Bell was hooked up in a duel with Whitey Ford for five innings. The two runs he allowed were produced by Roger Maris' 22nd home run of the year in the fourth inning.

But the Yankees got to Bell for three runs in the sixth, and any hopes Cleveland had of getting back into it were dashed when the Yanks got four in the seventh off Johnny Antonelli. In their own seventh the Tribe narrowed the Yankees' 9-2 lead to 9-5.

Essagian Connects for Tribe
Chuck Essagian unloaded his fourth homer to cap the too-little-too-late uprising.

Ford got his 10th victory in 12 decisions to tie Frank Lary for most victories in the American League this year. He left after seven innings, but he was pleased.

"I like this pitching every four days," said the 32-year-old southpaw, who used to get five or six days between assignments under Casey Stengel. "It gives me more starts and I think I've been just as effective."

"That long seventh inning (when the Indians scored three runs) got me all stiffened up. That's why I came out."

Luis Arroyo finished up with two innings of hitless ball.

Maris, who hit a homer in a losing cause Tuesday night, isn't worried about his batting average—.234 before Wednesday night's game.

"You're most valuable to your team with the home runs and the RBI," he said. "I'm satisfied." His 50 runs batted in top the Yankees and his 22 homers top the league.

New York 000 203 411—11 1661

Sam Is Sentimental Favorite

Snead Bids for First U.S. Open Golf Title

By JERRY LISK

Associated Press Sports Writer
BIRMINGHAM, Mich. (AP) — What witch's brew does Oakland Hills' boiling cauldron hold for Sam Snead, the sentimental favorite in the 61st U.S. Open Golf Tournament which opens today?

Snead, 49, among an eager field of 150, was making his 21st U.S. Open start in quest of his first triumph in a heartbreak trail of near-misses since his first try 24 years ago, also over the same treacherous Oakland Hills Course.

Snead has to beat defending champion Arnold Palmer, leading PGA money-winner Gary Player, four-time Open champion on Hogan—to mention a few—but most of all he has to whip the Open whammy against himself.

The irrepressible Snead, at the moment shooting some of the finest golf of his picturesque career disclaimed any jitters entering the 72-hole medal play event concluding with a double 18-hole round Saturday.

Palmer was rated a 5-1 favorite to win. South Africa's Gary Player, who dethroned Palmer as Master's champ was second betting choice at 6-1.

"You all don't think I'm going to win it," grinned Snead. "I don't think so either. So if things go right, I'll surprise everybody, including myself."

"I'll take four 71's and go fishing." That meant Snead figured a 284 would take the Open title won last year by Palmer with 280 at Denver's Cherry Hills course. Par for Oakland Hills is 35-35-70, a four-round total of 280.

Palmer's only pre-battle statement was: "Let's go—at least 10 players can win this and I think 280 will take it."

Snead has won the last three tournaments he has played—the Las Vegas Tournament of Champions, the Sam Snead Festival and the International Canada Cup. Only once in his last 12 rounds has Slammin Sammy been over 70.

Pirates Drop Reds To 2nd; S.F. Victor

By ED WILKS

Associated Press Sports Writer
The Los Angeles Dodgers are back on top in the National League race, gaining a half-game edge by beating the Chicago Cubs 7-0 Wednesday night. Pittsburgh dropped Cincinnati 5-4, and San Francisco tied the Reds for second place with an 11-2 job on Milwaukee.

The St. Louis-Philadelphia game was rained out.

Drysdale Hurls Shutout

The Dodgers knocked off the Cubs behind the five-hit pitching of Don Drysdale (5-3). It was his first shutout of the season. Backed by four double plays Drysdale didn't allow a runner past first. He walked but two and struck out seven.

Drysdale also belted a homer. So did Tommy Davis, who drove in three runs. He brought in one

in the first with a sacrifice fly, and the Dodgers then chased loser Don Cardwell (5-3) with three runs in the second, two unearned.

Dick Stuart did it for the Pirates. He drove in four runs with a single, triple and homer, beating the Reds with a two-run triple in the ninth off losing reliever Jim Brosnan (2-2). The Reds gained 3-2 and 4-3 leads against Bob Friend and Elroy Face before Bobby Shantz (3-1) took the decision with one hitless inning of relief.

Kuenn Stars for Giants

The Giants, with a seven-run seventh inning, beat Warren Spahn (7-7), the southpaw ace who has beaten them twice. Harvey Kuenn opened the big seventh with a double and closed it with a two-run triple. Willie Mays and Ed Bailey hit home runs for the Giants, with Bailey rapping two, and each drove in three runs. Juan Marichal, beating the Braves for the second time, collected a 3-3 record with a five-hitter, giving up fifth-inning homers by Frank Thomas and Joe Torre.

Ailing Carry Back Forgoes Ohio Derby

CLEVELAND, O. — Carry Back will not be able to make it to Randall for Ohio Derby Day.

Cleveland Jack Price, owner-trainer of the outstanding three-year-old talked with Randall general manager J. Gilbert Haus this morning and said that veterinarians and insurance company representatives had vetoed the trip.

Both emphasized that Carry Back is making a recovery from the injury sustained in the Belmont; but that the area on his leg is still tender and that any jar or bruise sustained during a van trip or plane flight could aggravate the injury, and the insurance company, which insures Carry Back for \$1,000,000 told Price it would not be responsible.

Price had previously told Randall officials that if the horse were completely recovered by Wednesday, he would have brought him here to parade before his home town friends on Derby Day.

Meanwhile emphasis on the Ohio Derby continued to build up with nearly a dozen horses either on the grounds or due to arrive in the next 24 hours.

Editorialist, the ace of the Fourth Estate Stable arrived this morning from Chicago. Dearborn is enroute; Up Scope will arrive late Thursday or early Friday. Sunaqua is stable here, as is Little Atlas and First Monday.

The Derby is a mile and one sixteenth test with an added value of \$15,000. Last year's race was won by Playgoer, who banked nearly \$12,000 out of the more than \$18,000 purse.

Coaches Dale Reichenbach of Elyria and Pete Prokop of Youngstown Liberty are getting the Yankees ready; while George Heller, coach of Portsmouth's state champions, and Columbus Hines of New Lebanon Dixie are in charge of the Rebels' preparations.

Morning and afternoon drills began Tuesday.

Salem's Don Davidson is expected to be one of the starters for the North squad.

Little League Player Hit by Baseball, Dies

COCOA, Fla. (AP)—A Little League baseball player died after being struck in the neck by a pitched ball.

The accident occurred in the third inning of a game Wednesday night while Burnit Estes, 12, was catching for the Moose Lodge team. The ball bounced off home plate and hit him in the neck between the chest protector and face mask.

The boy fielded the ball and tossed it back to the pitcher, then collapsed. Artificial respiration failed to revive him.

A doctor reported the ball apparently ruptured a large artery.

Tigers Edge Bosox, Tie Tribe for Lead

By ED WILKS Associated Press Sports Writer

The Detroit Tigers, with Frank Lary becoming the first pitcher to win 10 in the majors this season, beat Boston 4-2 Wednesday and gained a tie for first place with Cleveland in the American League race when the New York Yankees beat the Indians 11-5.

Whitey Ford, with relief help by Luis Arroyo, also won his 10th for the third place Yankees, who are one game behind.

Washington beat Baltimore 5-1. Kansas City tagged Minnesota 9-2 and the Chicago White Sox ran up a six-game streak with a 4-1 and 9-8 two-night doubleheader sweep over the Los Angeles Angels.

A two-run triple by Billy Bruton wrapped it up for the Tigers as they scored three in the fourth inning against the Red Sox and loser Billy Muffett (2-6). Lary (10-3), had a three-hit shutout until the eighth, when Boston scored on four singles and a sacrifice fly by Frank Malone.

Ford gave up eight hits, one a

solo homer by Chuck Essegian. Arroyo then mopped up with two innings of hitless relief.

A five-run second inning, triggered by Gene Green's two-run homer, did it for the Senators as Dick Donovan (3-5) won his third in a row with a six-hitter. Steve Barber (7-5) was the loser.

Kansas City was shut out on two hits for 7 1-3 innings by Camilo Pascual, but broke loose for eight runs in the eighth. Jerry Walker (3-3) won it in relief. Pascual was the loser.

Ray Herbert and Don Larsen, two right-handers acquired from Kansas City Saturday, wrapped up the White Sox's sweep. Herbert (4-6), won the opener with a three-hitter.

Johnny James (0-2) was the loser.

Larsen then saved the second game for Frank Baumann (5-6) after the Angels broke loose for five runs in the eighth inning and another in the ninth on Steve Bilko's homer. The Sox tagged loser Rom Moeller (2-5) for seven runs in the first inning.

Tonight Is Trading Deadline

Finley Changes Mind, Deals Daley to Yanks for Ditmar

By JACK HAND Associated Press Sports Writer

This is the night the general managers of big league baseball clubs sit up late, waiting for the phone to ring.

At midnight, local time, June 15, the trading deadline goes into effect. After that hour no player can be traded from one major league club to another without waivers. The rule remains in effect until the end of the season.

In case you are weak on baseball's legal terminology, waivers are the process by which each club in the league gets a chance to grab a certain player for 20,000. The teams lowest in the

standings get first crack and so on up.

New York turned to its old buddies in Kansas City for pitching help Wednesday, completing the 17th deal between the two clubs, involving 64 players, since 1955. Although owner Chuck Finley of the A's recently said no more trades with the Yanks, his general manager, Frank Lane, said he had Finley's approval.

The acquisition of Bud Daley, a left-handed starting pitcher, to team with Whitey Ford figures to strengthen the Yanks, especially at the stadium where southpaws usually are more effective than righties. To get Daley, New York sent pitcher Art Ditmar and infielder Deron Johnson to the A's.

The Yanks also made another move, acquiring Billy Gardner, veteran infielder, from the Minnesota Twins for Danny McDewitt, left-handed pitcher.

In the six-year interim, he had gone to bat 1,950 times and had 537 hits, including 350 singles, 90 doubles and 97 homers — but no triples.

BUCKET SEATS ALONE DO NOT A MONZA MAKE

■ Gee! ■ Little did we know, when we introduced the Corvair Monza last year, that we were starting a Big Thing. We just thought it would be pleasant if you could buy a car that treats you, the driver, like you want to be treated. ■ The bucket seats, of course, are the most obvious evidence of our desire to please you. But they're not the most important thing. No sir. What's really vital is the way a Monza handles—something nobody in the U.S. has yet copied. Or can copy. Because Corvair is the only rear-engined car made in this country, and you know what that means: steering light as thistledown. (You even park this one more easily, it steers so briskly.) Beautifully balanced braking—the car stays level even under panic braking, which we hope you'll never have to do. Traction and more traction, so you don't become a stick-in-the-mud. The kind of cornering that's sheer joy to experience. ■ You get more: a fully independent suspension that blots out road shocks before they can ruffle you. Clean, crisp styling. Thoroughgoing economy, from purchase price to operating cost. ■ You're not going to be satisfied with bucket seats alone, are you?

FAT OVERWEIGHT

Available to you without a doctor's prescription, our drug called ODRINEX. You must lose ugly fat in 7 days or your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies, or chewing gum. ODRINEX is a tiny tablet and easily swallowed. When you take ODRINEX, you still eat the foods you like, but you simply don't have the urge for extra portions because ODRINEX depresses your appetite and decreases your desire for food. Your weight must come down, because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. ODRINEX costs \$3.00 and is sold on this GUARANTEE. If not satisfied for any reason just return the package to your druggist and get your full money back. No questions asked. ODRINEX is sold with this guarantee by: Heddlston Rexall Drug Store, 675 E. State St. Mail Orders Filled.
